

RETAIL, WHOLESALE & DISTRIBUTION TECHNOLOGY

The one platform your stores, warehouse and wholesale desk finally agree on.

Groworx builds the software that runs multi-site retailers and distributors. Shop floor, warehouse, wholesale desk, online store and payments, all on one platform. One set of numbers you can trust. Built on POSibolt, in market since 2008.

THE PROBLEM WE FIX

Running many stores feels like running many businesses.

One till for the shop floor. Another tool for wholesale. A spreadsheet for the warehouse. A separate story online. Every extra system adds work and hides money. Groworx replaces that patchwork with one platform.

Stock you cannot trust

Counts go stale the day they finish. Ghost stock, missed sales, angry customers.

[Trace RFID + Replenify](#)

Trade orders run by hand

Wholesale still orders by phone, WhatsApp and email. Your team re-keys every line.

[BoltB2B](#)

Service visits with no paper trail

Installs and repairs live on paper and memory. No job number, no clean invoice.

[Volt FSM](#)

A website that oversells

When your web store cannot see real stock, it sells things you no longer have.

[OneStock + Shopify/Woo](#)

Payments that will not reconcile

Card and mobile-money takings do not match the till. End-of-day becomes a guess.

[Posipay](#)

Reports that disagree

Every system has its own version of the numbers. Nothing lines up.

[The POSibolt core](#)

THE GROWORX ANSWER

One platform, not ten separate tools.

Everything Groworx builds sits on **POSibolt**, one core system for inventory, pricing, purchasing, customers and multi-outlet operations. Every product reads and writes the same data, so your stores, warehouse, wholesale desk, online channels, service jobs and payments finally agree on one number.

Start with one product. Add the rest when you are ready. They compound.

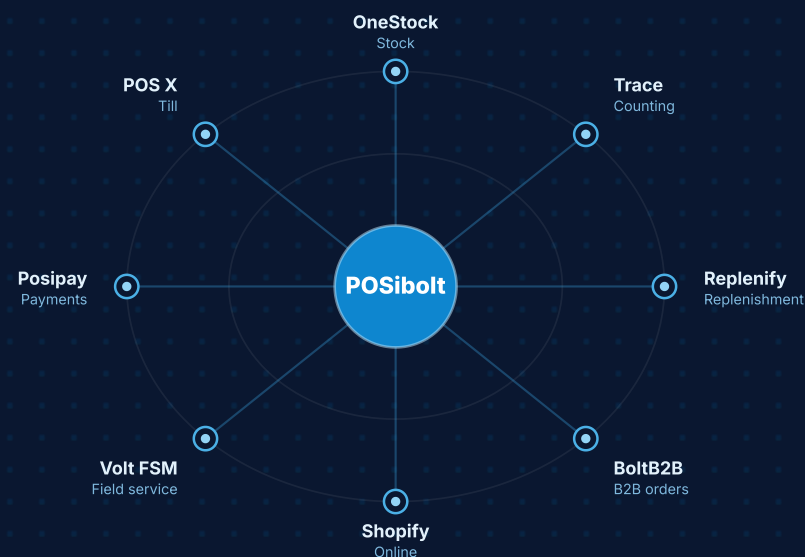

Inventory & warehousing

Pricing & promotions

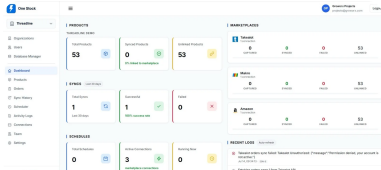

Purchasing & suppliers

Customers & loyalty

Reports & BI

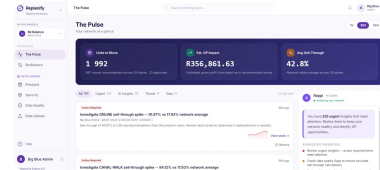

Eight products. One core.

OneStock · Omnichannel

Sell on every channel from one stock pool.

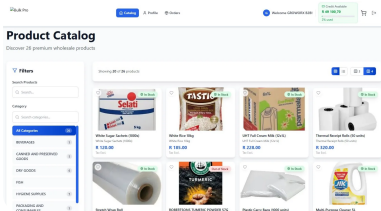

- ✓ Real-time inventory sync, no overselling.
- ✓ Centralised pricing, marked up per channel.

Replenify · Merchandise intelligence

Put the right stock where it actually sells.

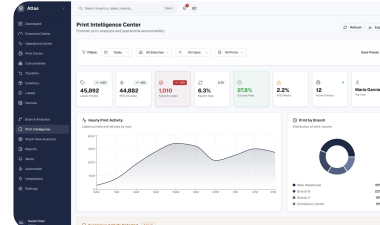

- ✓ Re:Balance moves stock to where it sells.
- ▲ **R7m gross-profit uplift** at a 32-store fashion retailer (May 2026).

BoltB2B · Wholesale & trade

Let trade customers place their own orders.

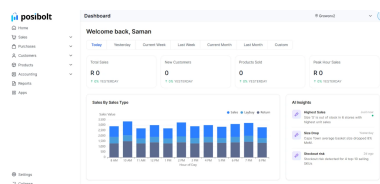

- ✓ Branded self-service portal, around the clock.
- ✓ Orders land in POSibolt ready to pick.

Trace RFID · Stock accuracy

Count in half a day. Trust the number all month.

- ✓ **95%+ accuracy** vs ~65% on manual counts.
- ✓ Stock-takes from days to hours.

POS X · In progress

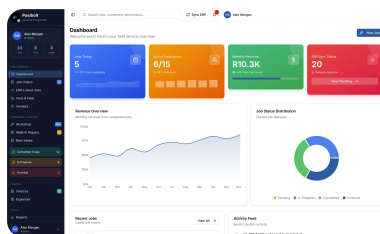

The till that keeps selling when the internet drops.

- ✓ Fast at the till, offline-resilient.
- ✓ Built on POSibolt, one source of truth.

Deeper Shopify & WooCommerce · Omnichannel

Your online store, wired into your stock properly.

- ✓ Deep two-way sync on POSibolt.
- ✓ Smart order routing that protects your margin.

Volt FSM · Field service

Every visit tracked from request to invoice.

- ✓ Log, assign, schedule, complete, invoice.
- ✓ Parts pulled straight from POSibolt.

Posipay · Payments

Payments, inside POSibolt.

- ✓ Take cards and mobile money at the till.
- ✓ Takings reconcile automatically against sales.

Built for how retail actually trades in Africa and the GCC: works offline when the line drops, priced in your local currency, WhatsApp-native, not a ticket queue.

WHY GROWORX

A proven platform, delivered on the ground.

R7m

Gross-profit uplift at a 32-store fashion retailer
(Replenify, May 2026)

95%+

Stock accuracy held all month with Trace RFID

Days → hours

Stock-takes, every store, every month

Trusted by retailers & distributors

HOW WE ENGAGE

Start small, or go all in.

- 1 Find the leak.** We put a rand figure on what is slipping today.
- 2 Go live in phases.** One product at a time, low-risk, nothing breaks.
- 3 We stay on the ground.** A local team, a WhatsApp away, not a ticket in another time zone.

See it against your operation.

On a 30-minute call we will show you exactly which pieces seal the leaks, and the rand we would expect you to get back.
